

Requirements

Overview

This document outlines the required dependencies and setup steps to run the machine learning evaluation scripts.

Python Version

Python 3.8 or higher is recommended.

Required Packages

- pandas == 1.5.3
- numpy == 1.24.3
- scikit-learn == 1.2.2
- openpyxl == 3.1.2

Installation Instructions

Use the following command to install all required packages:

```
pip install pandas numpy scikit-learn openpyxl
```

Checking Installed Versions

To verify the installation:

```
pip show pandas
```

```
python --version
```
